Office of Attorney General Paul J. Morrison

RE: Concealed Carry Subscriber Directory

The concealed carry email subscriber directory was established in June 2006 to provide updates on the implementation of the Personal and Family Protection Act. In January 2007 the Office of Attorney General updated the concealed carry website at www.ksag.org. The new website now contains a wide range of information and linkages useful to applicants and licensees alike. Having served its purpose, the subscriber directory has been discontinued.

Two new files have been added to the Kansas concealed carry website. The first is concealed carry statistics, and the second is concealed carry issues and updates. This memo is posted in the issues and updates file.

For personal service, and individuals needing to communicate directly with the concealed carry unit, please use one of the following:
